EDUCATION

Computer Engineering 2015 - 2022

Middle East Technical University - Northern Cyprus Campus

Toefl iBT 2014

CERTIFICATES

Odoo Development Training

EB Tech 2024

- Completed a training workshop totalling 55 hours covering module development, backend logic, and UI customization
- Worked on real-world use cases for ERP solutions

Advanced Cost Accounting Odoo 18

EB Tech 2025

- Completed a 22 hour training workshop with EBTECH
- Focused on analytic accounting, landed costs, and inventory valuation highlighting financial accuracy in ERP systems

Python for Data Science Cognitive Class IBM

- Applied Python expertise to handle large datasets for data migration, custom reporting, and complex backend business logic

Full-Stack JavaScript (IBM/Coursera)

- Developing Front-End Apps with React
- Developing Back-End Apps with Node.js and Express
- Cloud Native, DevOps, Agile, and NoSQL

Introduction to Containers (Docker, Kubernetes & OpenShift): (IBM/Coursera)

- skills necessary to deploy and scale instances in cloud-native environments

MY SKILLS

Frontend: React, OWL, TypeScript, JavaScript, Next.js, D3.js

Backend/ERP: Odoo (Functional & Technical), Python (Flask, Django, Pandas), Node.js, Express.js, Java (Spring Boot), C# (.NET Core)

DevOps/Tools: Docker, Kubernetes, OpenShift, Agile/Scrum, CI/CD pipelines, Git

Database: PostgreSQL, NoSQL

EXPERIENCE

Assistant Officer, Student Satisfaction Office

METU - NCC 2018 - 2020

- Supported onboarding of international students and facilitated orientation processes
- Workflow Automation: Optimized onboarding by implementing automated communication logic and standardizing operational procedures

Frontend Developer

Gorunum Tasarim (Internship) 2021

- Assisted in designing and debugging client websites using HTML, CSS, and JavaScript frameworks; gained hands-on experience with frontend practices and responsive design.

Engineering Tutor

Creative Group (Freelance) 2023-2024

- Providing tailored instruction across diverse engineering subjects, with a particular emphasis on computer engineering

AI Specialist

PH. Vision 2023-2024

- Strategic R&D: Prototyped AI models designed for pharmaceutical industry, focusing on data-driven product development
- Process Automation: Researched the integration of AI-driven predictive analytics into pharmaceutical supply chains to optimize stock levels and distribution

Logistics agent & Odoo Functional Consultant

Results (Riva Fashion) 2024-2025

- Coordinated shipment schedules and ensured timely delivery of goods across multiple regions
- CRM Optimization: Designed a solution to auto-map incoming numbers to existing profiles in Odoo database, eliminating manual lookup and improving response times
- Requirements Gathering: bridged communications between logistics operations and the technical team, facilitating meetings to define system functionalities
